

# MODEL GP-2600

**AUTOMATIC FLEXIBLE PACKAGE FORM, FILL AND SEAL MACHINE**  
(Two - side, Fin Seal Three - side, and Four - side Seal Flexible Package Form, Fill and Seal Machines)  
(Four - side Seal Flexible Package Form, Fill and Seal Machines)

## ■ FEATURES

This is bag fill and packaging machine developed as a succeeding model of famous GP-600.

A servo motor is adopted for the film feeding mechanism.

Safety and sanitation are fully taken into consideration.

Thanks to the large color touch panel, various settings can be made easily.

A one-touch mechanism is adopted for a quick change and adjustment of bag sizes.
